What a year 2025 is turning out to be for Manchester band ROSELLAS, first they signed a new record deal with First Run Records and have now just been asked to headline a special gig in the capital of London for The Official Oasis Fan club during Oasis's series of sell out shows at Wembley.

The new single GET OVER YOURSELF is without doubt the stand out track from the bands forthcoming EP 'Every Beautiful Night' and Follow's on from the BBC and BAUER Network Supported and Spotify favourite ' EYES OF THE WORLD '

GET OVER YOURSELF is everything you expect from the ROSELLAS. Fresh, Anthemic, Hooky, and exciting. Expect to hear it all over the summer being played on car radio's and on all your favourite playlist's.

Drew [Lead singer] commented; *"It was the last track of the EP to be completed and definitely one we kicked about for a while"*. Euan [Rhythm Guitar] continues

“it was actually a lyric in the song that gave the EP it’s name also, but fundamentally it is a track about people who take themselves way too seriously and through that, can never be happy”.

But who are the Rosellas?

Simply one of the best live emerging bands in the UK today. Having already supported many major artists, playing many festivals and selling out their own headline shows, their Music has now even started to appear on TV, Most recently on the BBC’s Favourite ‘Waterloo Road’.

Having recently sold out Manchester Academy 2 [800 cap] the band are heading off all over the country to promote this single and New EP with shows from Glasgow to London and everywhere in between, Circling back to another Headline show later this year in November at Manchester’s, The New Century Hall.

So the future is looking exciting for this humble hardworking 4 piece band who added these final words;

“We write lyrics that fixate on the desire to wade through the daily monotony of working life and focus your mind on key elements that drive you to success – like ambition, passion and determination. We want guitar music at the forefront of the music industry again and we want to be a band for the people – The everyman and Woman in the Good times and the Bad times”
